

## ***Custom built P-38***

*James C. O'Hara and his wife Missy of San Angelo flew in for the Schleicher County Fly In at the county airport on Saturday, October 31, 2009. In all, one helicopter and 21 planes ade their way to Eldorado, in including experimental aircraft such as O'Hara's 2/3 scale replica of P38 Lightning. He built the plane from scratch and started 15 years ago with \$250 worth of sheet aluminum. He said it has taken him over 15 years to get the beautiful plane in its current condition.*
