

Take-Offs are Optional-Landings are Mandatory

A seminar covering general aviation topic of the month, "Best Glide Speed." When the airplane gets quiet during the flight is not the time to think about speeds and glider skills. Prepare for the silent treatment from your aircraft. We will also discuss the maintenance topic of the month and quarter, "V-Band Clamps and Electronic Ignition."

Directions: From San Angelo Loop 306 head south on Knickerbocker Road to the airport. Turn left onto Reary Blvd and continue to Hangar Road. Turn left into the terminal. Enter the terminal and stay to the right. The conference room is the room right after the Asian restaurant.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
