

To my ROUND DANCE Family

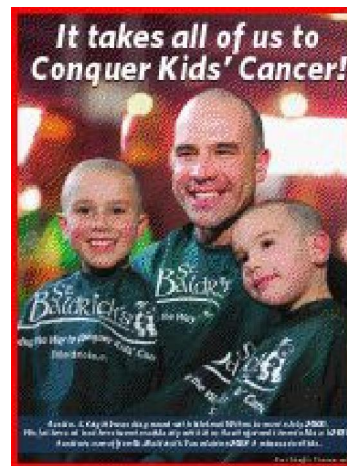

March 28, 2012

I just want to say a big "Thank you" for helping me reach \$4,685 toward my \$5,000 goal for St. Baldrick's Foundation this year! Your generosity surpasses my expectation, and I am grateful for your support and for sharing the same vision of making a difference in the lives of children and families afflicted with Cancer by providing hopes and cures through ground-breaking medical research. Although you may not get to be in the lab, but please know that every time a student or researcher sits down by the bench to do an experiment, you are there. When a doctor goes into a patient's room in a clinic to tell his or her mom and dad that their child is now "CANCER FREE", you are there! And I know the kids and their parents all want to say a chorus of "Thank You!" to you for being wonderful and beautiful human beings, and for caring for the weakest among us.

Again, thank you! Please continue to help me spread the word for this great cause. We will continue to collect donations through 2011. Let's see if we can break my \$5,000 mark in the next few weeks and reach our \$25,000 goal before years end. (Our Event total now stands at \$14,880 and the national total is over \$21 million.)

Remember you who are computer savvy and still wish to donate may go to <http://www.stbaldricks.org/participants/Wayne> and donate online. If you had rather, just make out a check to St Baldricks Foundation and send it to me.

Again thank you on behalf of kids with cancer!
