

## Webfoot email Reflector

The purpose of the reflector is to facilitate communications between members of the Webfoot ham radio group especially during the time we are not in the Rio Grande Valley.

The reflector (sometimes called a list) is an electronic bulletin board. You send a message to one address "[Webfoot@fly-web.us](mailto:Webfoot@fly-web.us)" and it will be sent on to the Webfoot group. Members can maintain their own email address.

**To Subscribe to Webfoot Reflector visit this Web page:**

**<http://lists.fly-web.us/mailman/listinfo/webfoot>**

Enter your:

**email address**

**Name & Ham radio call sign**

and a **password**.

You will receive a confirm message from the Webfoot reflector. You must respond to the message to complete the process of joining the reflector by either:

1. Click on the web address, (link) in the body of the message.

or

2. Reply to the message and do not edit the subject line.

Add **Webfoot@fly-web.us** to your address book or list of approved senders (This will insure your email program will not treat Webfoot email as spam).

If you have a problem subscribing send an email to: Bob Heiser [W7IKT@fly-web.us](mailto:W7IKT@fly-web.us)

If you send a message to the reflector "[Webfoot@fly-web.us](mailto:Webfoot@fly-web.us)" before you are a member of the reflector or from an email address that is not a member of the reflector your message will be held for moderator approval.

At the end of every message from the Reflector is a link to your personal options web page. On that web page you can change your email address, quit the reflector, stop mail delivery, have your password emailed to you, change your password, etc.

Please no political or general humor posts.

Bob Heiser W7IKT
